

Chronic-Pain-Science Privacy Rules version 01-02-2012.

Chronic-Pain_Science Privacy Rules' objective is to give insight in the way the site deals with its gathered information.

Goal of information gathered.

As far as we can speak of information gathering , this information is only used to guarantee the interest of those who put the information at disposal.

This information is not being sold or given to others for trade objectives.

Way of information gathering.

The information is partly stored in automatic systems. Entering the system is authorized.

There is no direct connection between the client system and the Chronic-Pain-Science systems.

Information removal.

The registered information will be removed from the databank after the legal term has passed.

Altering information.

On request of the person registered, after identification in conformity with legal regulation.

Copying registered information.

A registered person has the right to one copy of the registered information after identification.
